Akure, Nigeria

Portfolio: https://port2-folio.netlify.app/ | **GitHub:** https://github.com/Ayomidejhay

Passionate and detail-oriented frontend developer with hands-on experience building modern, responsive web applications using React, Next.js, Tailwind CSS, APIs. Adept at collaborating across teams and solving real-world problems with scalable tech solutions.

EDUCATION

Federal University of Technology, Akure

B.Tech. in Computer Science — Expected Sept 2025

PROFESSIONAL EXPERIENCE

Freelance Frontend Developer

Remote | July 2024 – Present

- Built responsive websites and dashboards for small businesses and startups using React, Next.js, and Tailwind CSS.
- Developed reusable components and design systems to speed up development and ensure UI consistency.
- Integrated backend functionality including authentication and database management.
- Optimized performance and SEO of websites for better user engagement and discoverability.
- Collaborated with clients to gather requirements and deliver customized, scalable solutions.

Frontend Developer Intern

DotCircle Labs | Jan 2024 – June 2024

- Developed and maintained frontend components for client dashboards using React and Tailwind CSS.

- Built responsive landing pages and admin panels integrated backend.

- Implemented authentication systems with role-based access using Supabase RLS.

- Collaborated with designers and backend engineers to ship production-ready features.

PROJECTS

ZeroHunger

- Stack: Next.js, TypeScript, Supabase, ShadCN UI, Tailwind CSS

- A food donation platform connecting donors and recipients to fight food waste.

- Integrated real-time listing updates, reservation system, and pickup tracking.

- Implemented toast notifications for key events like new donations or expired reservations.

- Applied Supabase RLS policies for secure and contextual data access.

Live Demo: https://zero-hunger-uzok.vercel.app/

JobConnect Platform

- Stack: Next.js, Supabase, TypeScript, ShadCN UI

- Developed a job-sharing web app allowing authenticated users to post and browse job listings.

- Used Supabase Row-Level Security (RLS) to enforce access control and manage job data securely.

Live Demo: https://jobconnnect.netlify.app/

Degen Cyberlab Landing Page

- Stack: Next.js, Tailwind CSS, TypeScript

- Designed and developed a sleek, responsive landing page for a cybersecurity education platform.

- Focused on mobile-first layout, brand consistency, and smooth animations using Framer Motion.

Live Demo: https://cyberr-lab.netlify.app/
